

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

14 (currently amended) Device for forming wood fiber board from a wood fiber stock suspension has a basic weight of 1200 to 8000 g/m<sup>2</sup>, the device comprising a first headbox; ~~and~~ a main dewatering zone having a first top wire or felt and a bottom wire or felt, the first top wire and the bottom wire forming a first wedge zone having an inlet end and an outlet end; and apparatus for pressure loading the outlet end of the first wedge zone being pressure loaded at the outlet end.

15 (canceled)

16 (previously amended) Device according to Claim 14 wherein the first wedge zone is adjustable.

17 (original) Device according to Claim 14 wherein the bottom wire runs essentially horizontally.

18 (previously amended) Device according to Claim 14 further comprising support means for supporting the wire or felt in the first wedge zone said support means comprising perforated plastic, steel plates, foil strips or table rolls.

19 (original) Device according to Claim 14 further comprising a second headbox for applying a top layer.

20 (original) Device according to Claim 19 further comprising a second dewatering zone having a second top wire or felt and the bottom wire or felt forming a second wedge zone.

21 (previously amended) Device according to Claim 20 wherein the second wedge zone has an inlet end and an outlet end, the second wedge zone being pressure loaded at the outlet end.

22. Device according to Claim 14 further comprising several press nips, each of the press nips including opposed press rolls.

23. Device according to Claim 22 wherein the press rolls are arranged substantially vertically above one another.

24. Device according to Claim 22 wherein the press rolls in the press nips are suitable for individual pressure loading.

25. Device according to Claim 14 wherein the machine frame is suitable for cantilevering.

26. Device according to Claim 14 further including two to six press nips.

27. Device according to Claim 14 further including three to five press nips.
